THE INTELLIGENCE ADVANTAGE

We Start With the Buyer. Not the List.

Traditional affiliate marketing often starts with an existing audience and asks: **“What else can we sell this list?”**

Affiliate Aviator starts with your offer and asks: **“Who is most likely to be the right customer?”**

We use AI and data intelligence to identify high-intent prospects that match your ideal customer profile, then promote your existing offer directly to them.

A broad market becomes a focused audience built around customer fit and current opportunity.

THE AFFILIATE AVIATOR MODEL

Profile. Match. Promote. Track.

01

PROFILE

Define your ideal customer.

We work from your existing offer, customer profile and qualification criteria.

02

MATCH

Identify the opportunity.

Data intelligence helps identify prospects that match the profile and show relevant signals.

03

PROMOTE

Put your offer in front of them.

We deploy your approved promotional materials and adapt them for the target audience where appropriate.

04

TRACK

Measure the results.

Prospects enter your sales process through trackable links so agreed activity and sales can be attributed.

OUR ROLE

We Supercharge What Is Already Ready to Sell.

Find New Prospects

Identify people and companies that match your ideal customer profile.

Identify Intent

Prioritize prospects using available intent, behavior and market signals.

Build Custom Audiences

Create targeted audiences around your offer, ICP and campaign criteria.

Enhance Existing Databases

Find stronger-fit reactivation opportunities inside records you already own.

Activate Audiences

Provide Audience Data

Use direct outreach, AI-assisted engagement and supported distribution channels.

When appropriate, provide custom audience files, including SHA-256 hashed files for compatible platforms.

Drive Qualified Traffic

Send interested prospects directly into your existing customer journey.

Track Attribution

Connect Affiliate Aviator-generated traffic and agreed outcomes to the campaign.

CLEAR RESPONSIBILITIES

Affiliate Aviator does not build your company, create your core offer, write your core sales copy, replace your sales team, close your customers, or fulfill your product or service.

> **Our job is simple: identify the right prospects, promote your offer and get them into your sales process.**

- ✓ Complete offer
- ✓ Approved materials
- ✓ Working sales process
- ✓ Internal fulfillment
- ✓ Capacity for customers
- ✓ Trackable outcomes

STRATEGIC PARTNERSHIP FIT

Your Offer Must Be Ready for Customers.

Your offer does not have to be mature or historically proven. But it must be complete—with pricing, an ideal customer, approved materials, a working sales destination, a team that can close, and the capacity to fulfill.

> **If you need someone to build the offer, sales process or fulfillment operation, Affiliate Aviator is probably not the right partner.**

READY MEANS

- ✓ Complete product or service offer
- ✓ Defined pricing and terms
- ✓ Clear ideal customer
- ✓ Approved copy, creative and promotional materials
- ✓ Working website, landing page, calendar, application, webinar, checkout or sales process
- ✓ Internal sales and fulfillment capability
- ✓ Capacity and tracking

ALIGNED ECONOMICS

100% Pay for Performance.

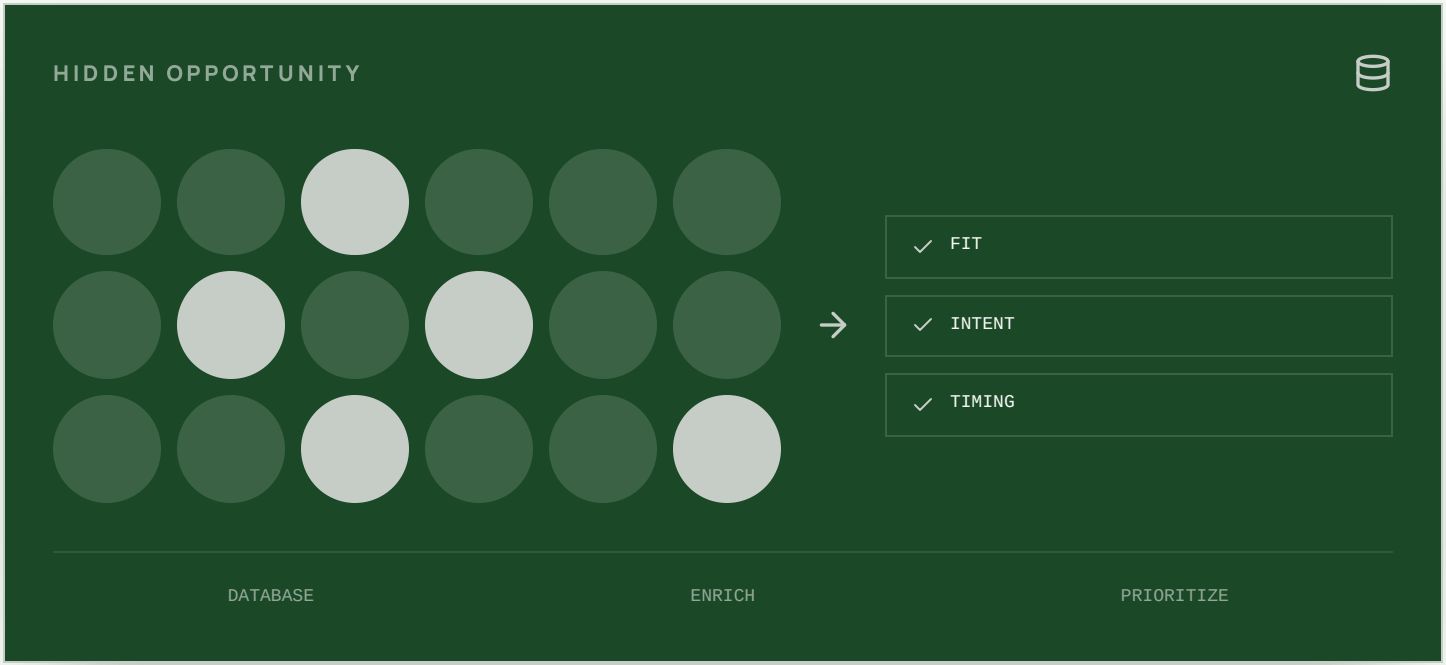

No setup fees. **No monthly retainers.** **No hidden charges.**

Compensation is based on the structure agreed with each strategic partner—qualified leads, appointments, completed sales, revenue, or another clearly defined result.

> **If we don't produce the agreed result, we don't earn the performance compensation tied to it.**

$0	$0	RESULT
SETUP	RETAINER	PAYMENT EVENT

Compensation follows the result defined with each strategic partner.

YOU MAY ALREADY OWN THE OPPORTUNITY

Your Existing Database May Be More Valuable Than You Think.

We can enhance existing prospect or customer records, identify stronger-fit opportunities, and create targeted reactivation audiences based on current profile and intent.

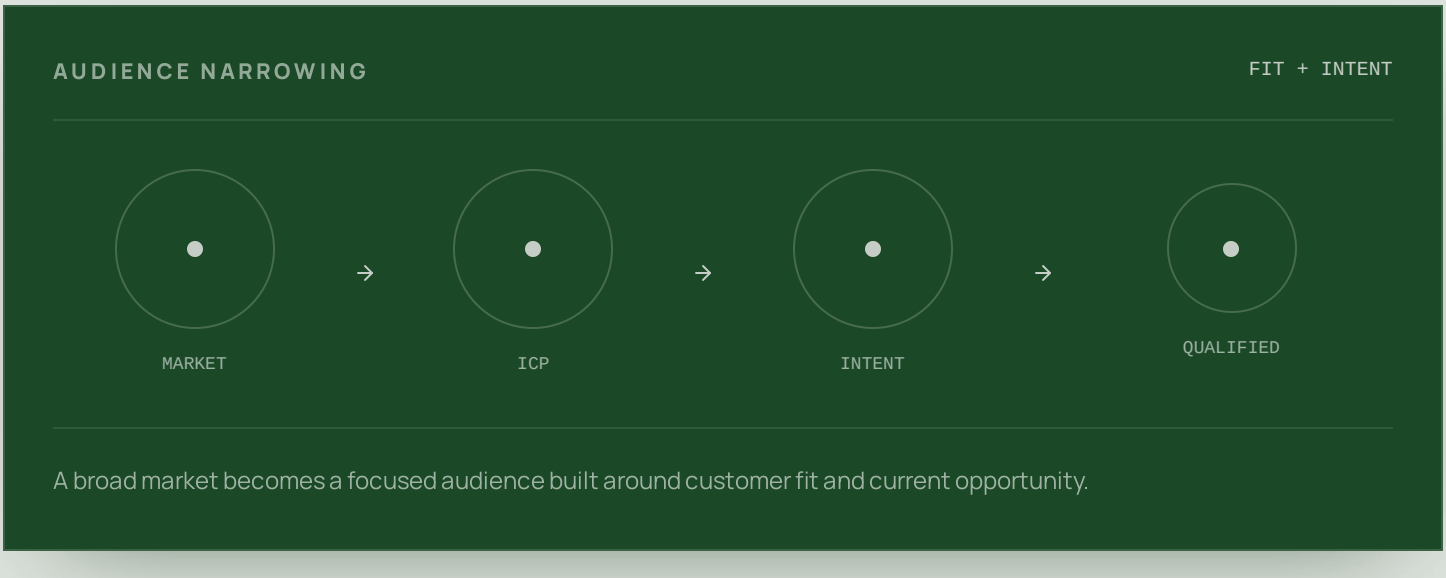

The goal isn't to email everyone again. The goal is to identify who may be worth reaching now.

POWERED BY DATA AVIATOR INTELLIGENCE

Better Data. Better Targeting.

Data Aviator is the intelligence layer used to identify target profiles, match prospects, recognize relevant signals, build custom audiences, enhance databases, and improve campaign targeting.

> **The technology is not the product. More opportunities for our strategic partners is the product.**

ABOUT AFFILIATE AVIATOR

A Smarter Way to Promote Affiliate Offers.

Affiliate Aviator is an AI- and data-driven affiliate marketing company built to help strategic partners reach more prospective customers.

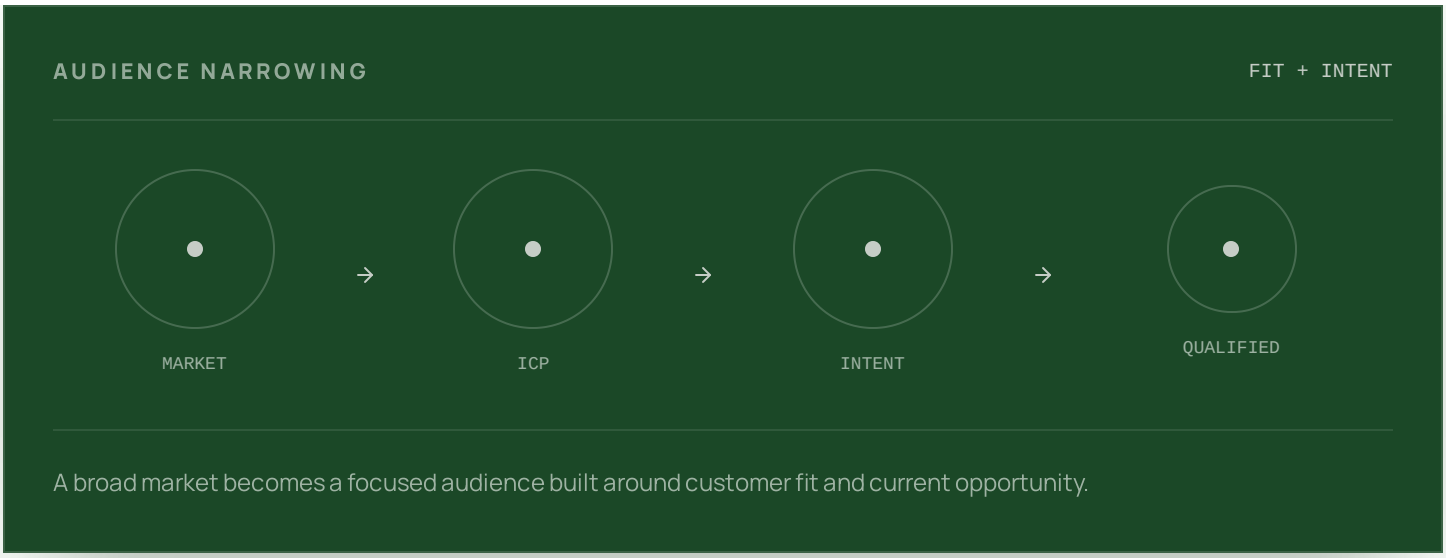

OUR ROLE

Intelligence Added to a Simple Affiliate Model.

We combine traditional performance-based affiliate relationships with advanced audience intelligence.

Our role is not to build the strategic partner's business. We identify prospective customers, promote the existing offer and drive interested buyers directly into the partner's sales process.

> **Partners sell and fulfill.**
> **Affiliate Aviator identifies, promotes and drives.**

POWERED BY DATA AVIATOR INTELLIGENCE

Better information behind every audience.

Data Aviator provides the intelligence used to profile customers, identify intent, enhance existing databases and build custom audiences.
